SERVING THE COMMUNITY

Aim

Women play a significant role in health promotion and care in the family. They have a great influence on the health of their children, their family and the community. Our aim is to promote the health of women and address their health needs at various stages of life through:

- Enhancing the awareness and encouraging the practice of healthy lifestyle in women;
- Educating women on the prevention of important health problems; and
- Providing women with effective screening services.

Services Provided

Family Health Service of Department of Health offers a health promotion and disease prevention programme at its Woman Health Centres for women aged at or below 64. Services include :

1 Health education and counselling

Healthy lifestyle practices, prevention of osteoporosis and cancer, breast awareness, antismoking advice, weight management counselling, etc.

2 Screening

- **Physical Examination:**
 - Body weight, height and blood pressure measurement.
 - Breast and pelvic examination.
 - Urine sugar screening.
- **Laboratory:**
 - Cervical test for women with sexual history.
 - Other investigation. (As clinically indicated.)
- **Radiological:**
 - Screening mammography for women aged 50 or above. (Separate charge needed.)

3 Referral to specialties

As clinically indicated.
